AGUA FRIA . . . 1969 . . . the place and time both seem distant now, as we bring to a close another school year; pack up the books, empty out the lockers and turn to take one long and lasting mental picture of a year now gone by . . . never to return . . . recorded only in our scrapbooks and memories. As they say in latin, sixtium ninadae . . . "That was the year that was . . ."

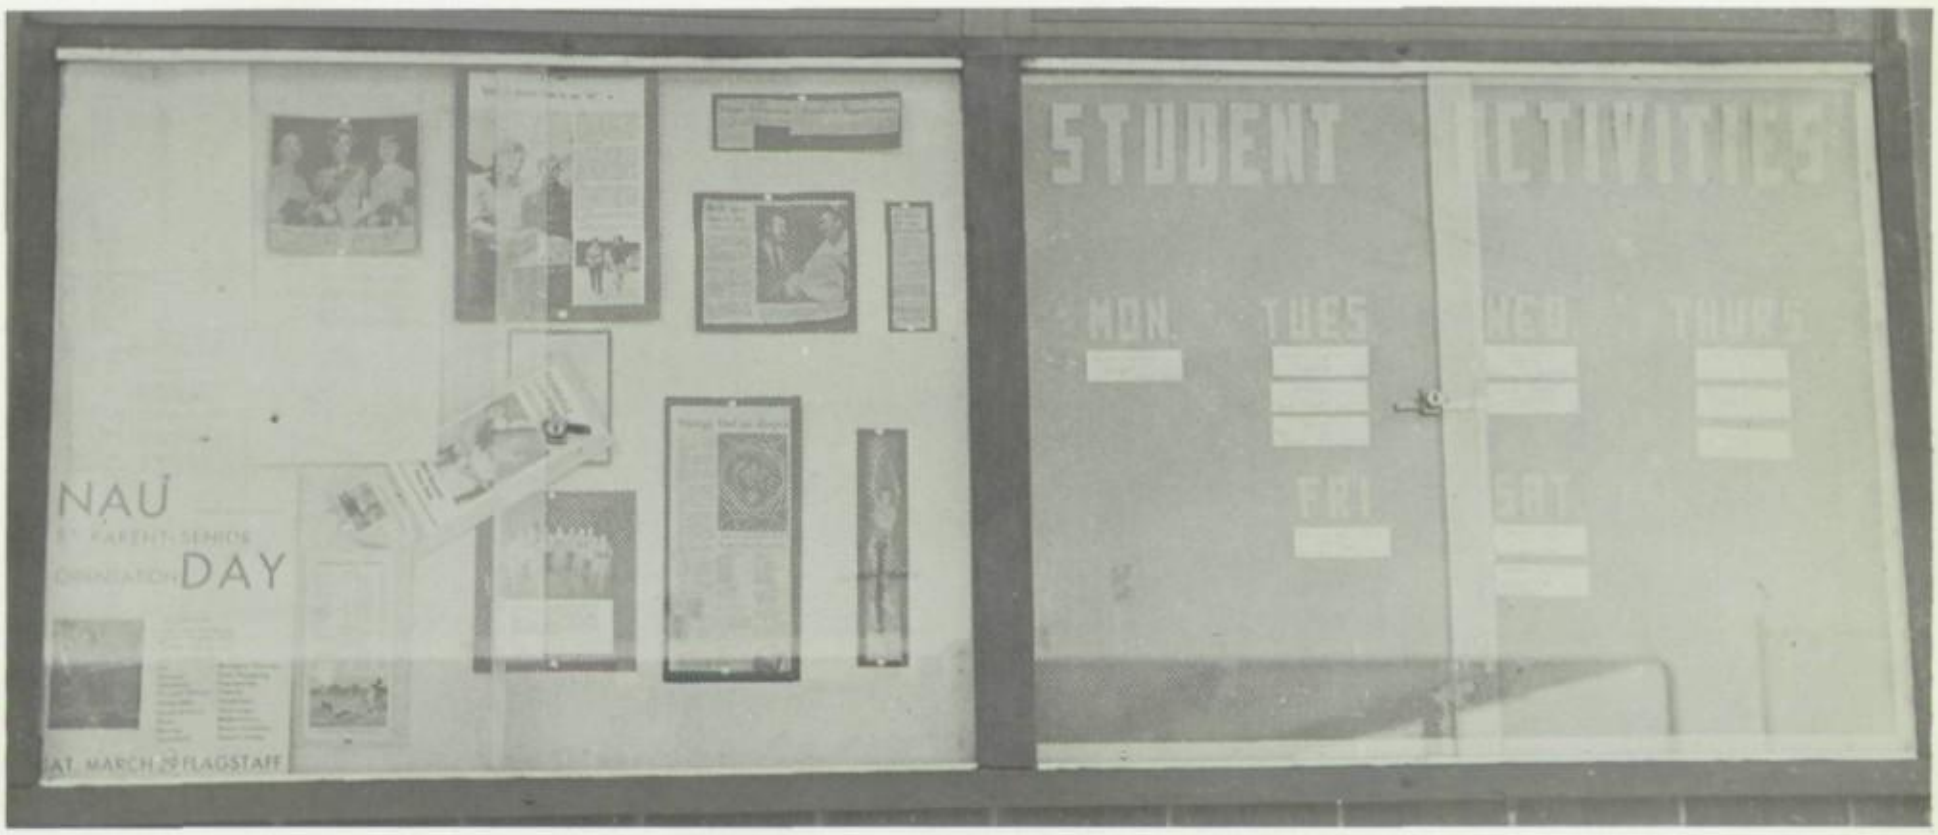
"Are you kidding me, another ridiculous aerial shot!"

YaHaa, the old administration building. For those of you who don't know where it is, it's due north from "the Pump."

"the Pump"

How many were caught?

The Bull-etin Bored.



The participation of students in extra-curricular programs is always of major concern to the administration and community. This year witnessed a great deal of spirit and involvement by the entire student body.

Two student bodies . . . involved in a popular student activity.

"What do you mean me ditching? What is this anyway, 6th period publications?"

At right we have your standard American Tom Tudor, the only graduate that's had senioritis since he was a freshman. Seated with him are some of the greatest connoisseurs of fine soft drinks this side of the Agua Fria River.

School life can be, and usually is, pretty entertaining at times. Remember the fun at the poster painting parties, the assemblies (huh Loren?), the dances and the games? Even between classes the antics of all the crazy people at school never failed to stir up laughter and chaos just about everywhere.

Time it was,
And what a time it was,
It was . . .
A time of innocence,
A time of confidences.
Long ago . . . it must be . . .
I have a photograph.
Preserve your memories;
They're all that's left you.

As the year began, Seniors were faced with a great deal of apathy. Emotions were mixed; confusion seemed to be the theme of the year. Class leaders set their goal toward trying to involve more students in class activities. Ideas were many, but few participated.

At times it seemed as if the entire class was a failure. But one needed only to look behind the scenes to realize that there were those who cared, those who were willing to try. Those people, went to class meetings, worked on floats, sold magazines, were . . .

Those people who had developed a deep pride in their school—Agua Fria.

In looking back, 1965 seems so far away. As Freshmen, there was a more acute awareness that we were now in high school, the BIG TIME!

There was a sense of urgency, a need to take part in anything and everything that was available. In a sense, it was as if we were one—a unified body. All wanting very much to be a part of what we knew was a very fine school.

something one looks forward to for a long time. And when he gets there he basks in its sunshine. As Freshmen, we were one—as time went on we became vastly divided.

As Sophomores, everyone seemed to branch out, to find other interests. We were still a class, but we were no longer unified. We felt the pressures of many decisions —academic as well as social. This, more than any other, was a building year. It played a major part in the construction of our lives.

academics. PSAT and National Merit tests bring memories of anxiety and tension. As we reached this point in our high school years, most of us had established a pattern. In other words, school life had become routine. There were high and low points, but for the most part, things were relatively calm. The Prom, although it was not the best ever, was a learning experience. Many realized that responsibilities come before anything else.

Seniors—the leaders of Agua Fria! It would be left up to us to uphold Agua Fria's fine standards; to carry on its traditions of school pride and loyalty. Being a Senior does not mean that one automatically attains respect. He must earn it by acquiring qualities of leadership and dependability. The title "Senior" has a certain quiet aura about it. Each Senior takes a great deal of satisfaction in just being a Senior. The task is in striving to make the title have meaning . . .

This Senior seems to be alone but it is a false assumption—many other girls and boys are in the same situation. In a few more months they will find themselves on their own in college, at work, or perhaps even married. They will look back on their "high school days", some with mixed feelings, others with 100% joy. But all of them will realize that they learned a great deal, but not enough, they still have a long way to go. For life has really just begun — the future lies before them . . .

Seniors are faced with so many questions which can be answered only by themselves, often with the help of sound but confusing advice. Most realize that the outcome of the years ahead is clearly and definitely their responsibility alone. This realization often seems to overwhelm even the most thoughtful. In these troubled times, decisions do not come easily. It can be expected that a decision affecting a person's life would be the most difficult, important decision of all. A Senior must be concerned with all the confusing, baffling problems of the adult world.

In Saudi Arabia in 1347, a most vicious man named Abdel Kaboobah developed a revolutionary new way to aggravate and befuddle football players. Senior Pom Pon girls Debra Lytle and Kaye Brandick are just about to demonstrate this little trick in the photograph above. You've all seen it done. The girls nonchalantly walk onto the field and as the football players come running out, the red and gray arch is dashed over the head of the first man. As he stumbles off, the rest of the players are tripped or beaten with sticks by the rest of the Pom Pon squad . . .

1969 at Agua Fria enjoyed a graduating class of great diversity. It seemed that this year, especially, there were so many individuals with varied interests and abilities, ranging from music and dramatics to electronics and organic chemistry. Now that the year is over and we've totaled up the sum of the future. Perhaps in ten years a class reunion might reveal that Les Brusseau is an up-and-coming young physicist, maybe Lanny Lawson in the world series, or Debbie Sarver a fashion consultant. After looking at the above picture of Tom Tudor laying on the grass, many questions run through one's mind. Is he just taking a rest because his cast is too heavy to drag around? Is he waiting for it to snow? Have his vital organs gone on strike? Has he had an acute attack of Senioritis? Has he been shot in the stomach? Did his mother cut off his supply of jelly beans? Is Coach Horn standing over him with a black snake whip? Is he camping out? Is he dreaming of a white Christmas? Yes, many questions run through one's mind . . .

After graduation, the campus we knew so well will look lonely and deserted. Memories of our class will loom in Senior hall and the tree which used to shelter the Senior boys at lunch, will stand alone on the campus. The voices of all will linger on in the gym and everyone will long remember the pep assemblies which stimulated so much spirit. Yes, the campus will be empty, but with the coming of September and a new school year, the Juniors will move up to take our place and carry on past and cherished traditions.

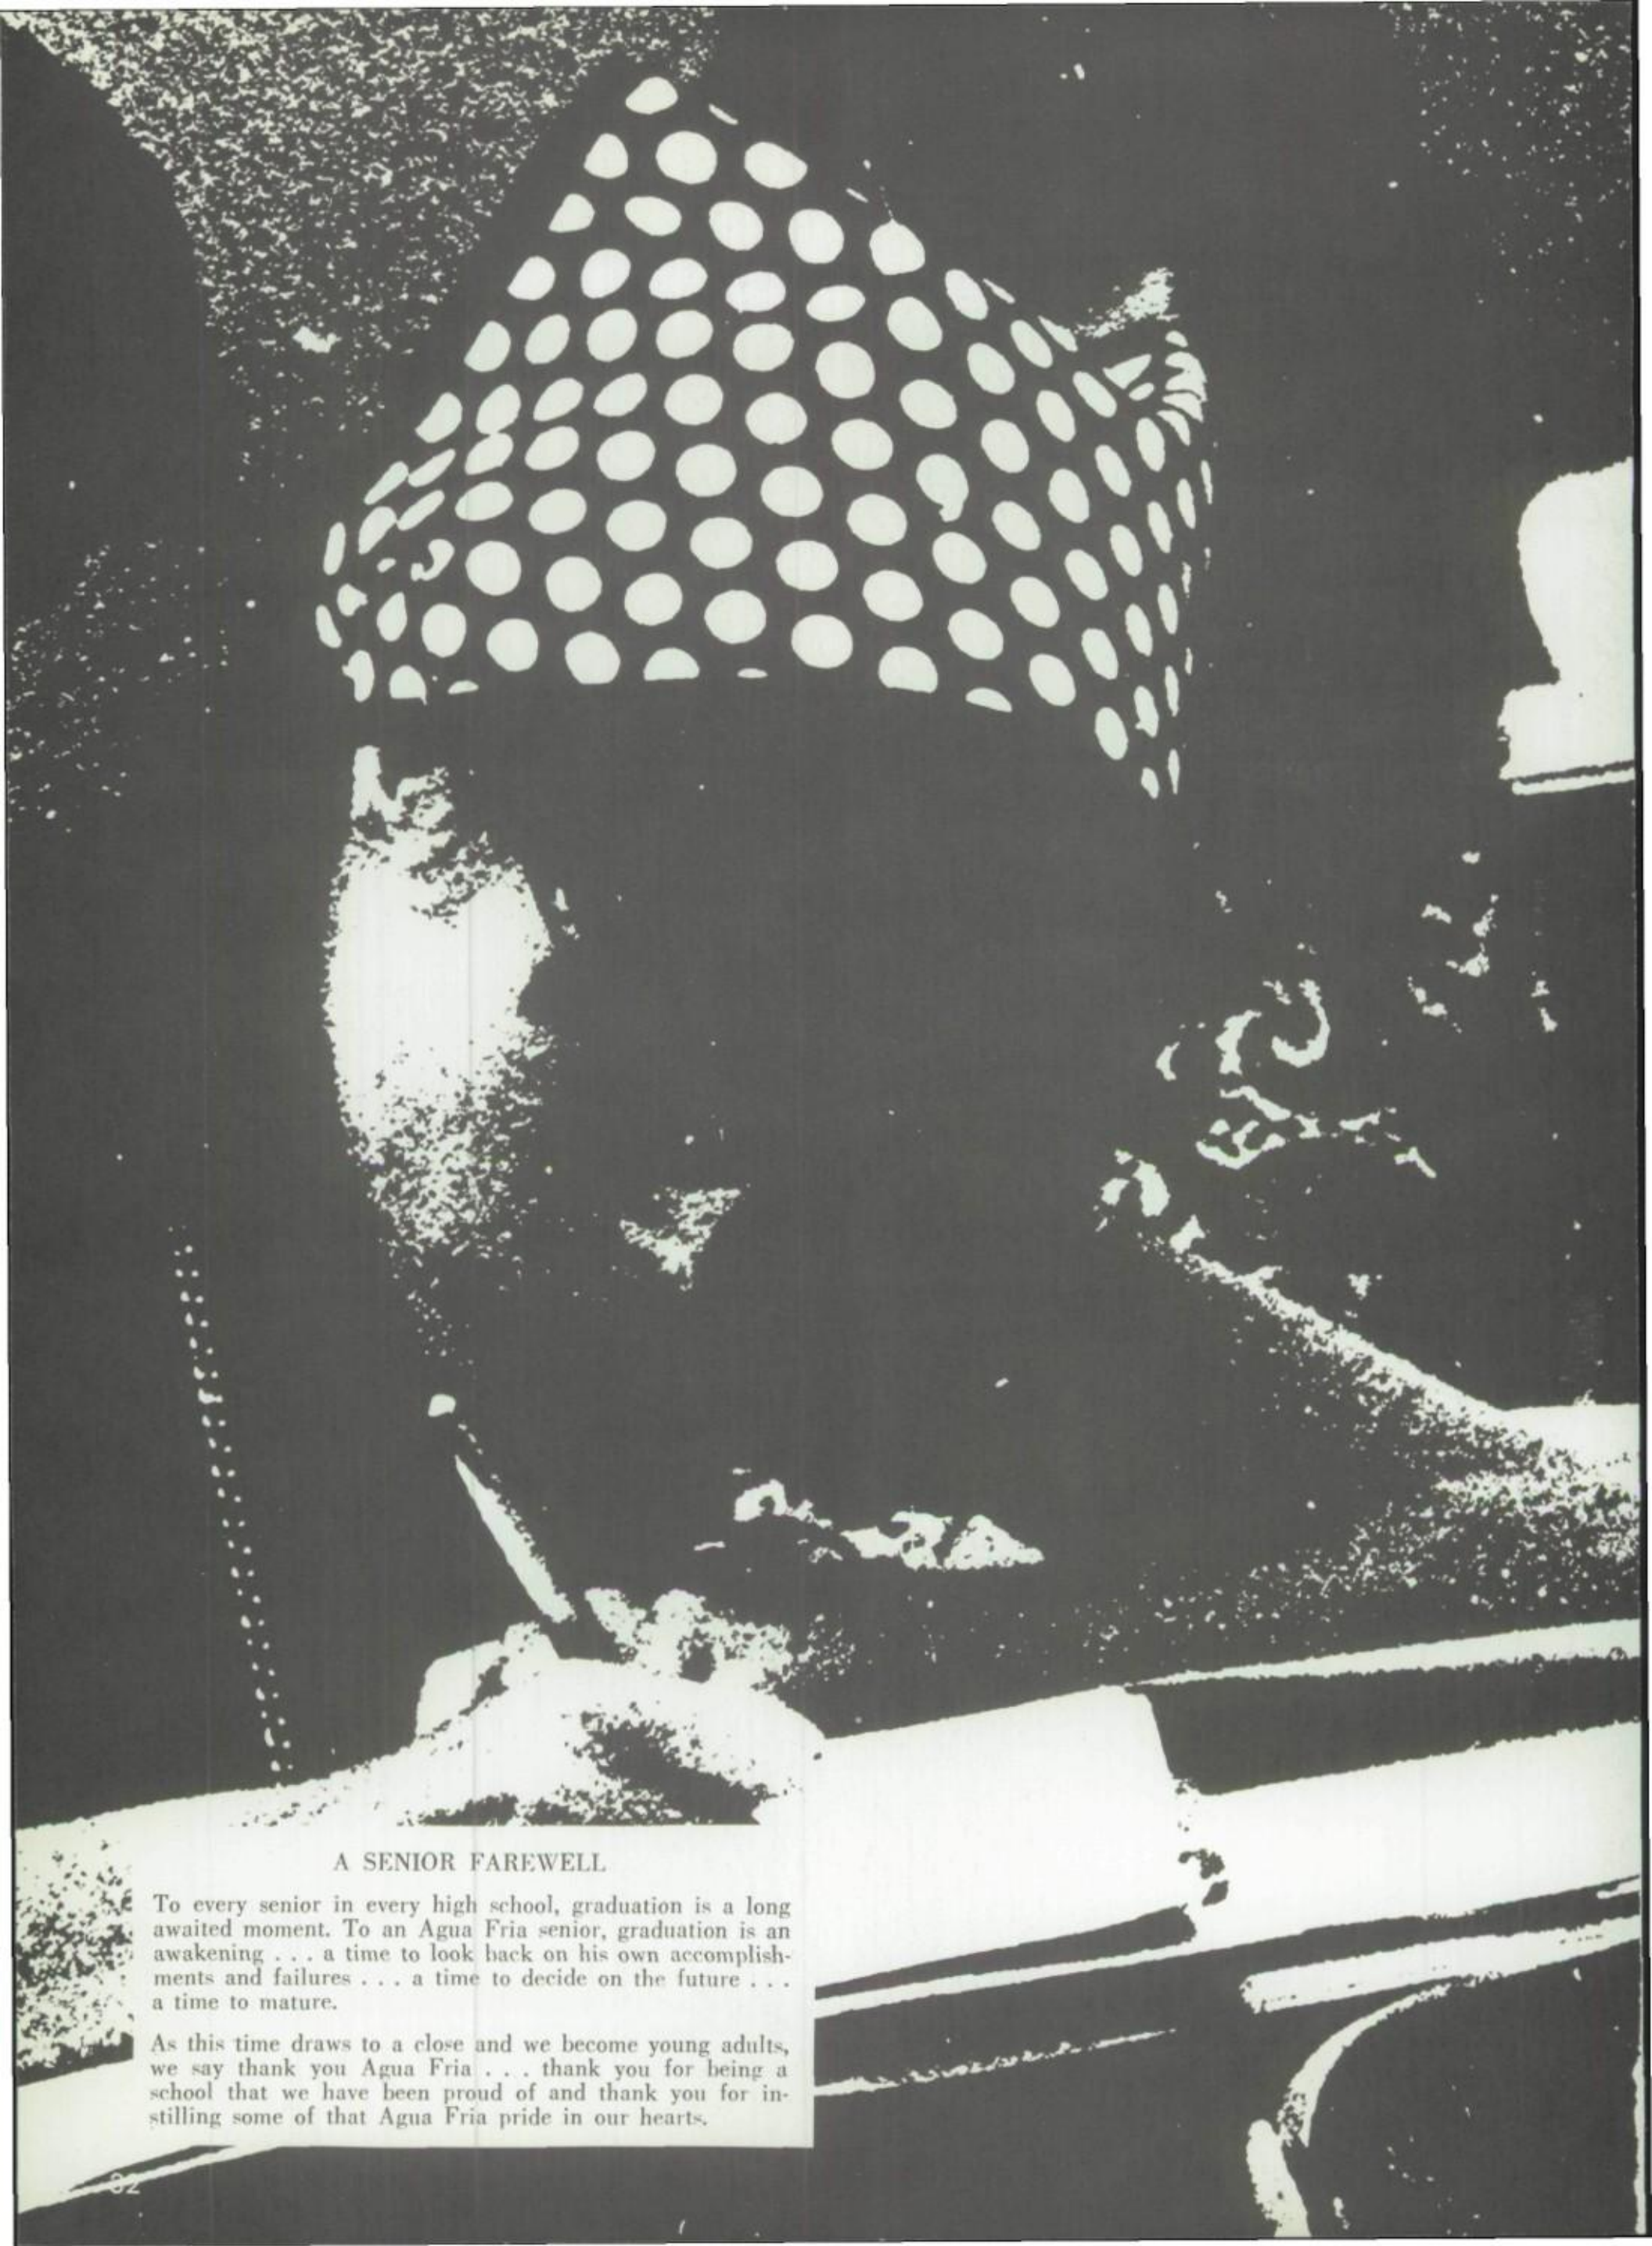
The memories of Agua Fria will remain in the minds of those who are now leaving. The Victory Flag signifying the athletic accomplishments. The familiar faces and of course the new faces coming to replace the old. This is all a part of leaving; the pride, regrets, and sometimes the jealousy felt for those who are just beginning.

To you future Seniors, you who will be the leaders —become involved, don't sit on the side lines, be a part of Agua Fria as it is a part of you. Uphold its traditions and its glory. Four years pass by very quickly and they never come back again.



A SENIOR FAREWELL

To every senior in every high school, graduation is a long awaited moment. To an Agua Fria senior, graduation is an awakening . . . a time to look back on his own accomplishments and failures . . . a time to decide on the future . . . a time to mature.

As this time draws to a close and we become young adults, we say thank you Agua Fria . . . thank you for being a school that we have been proud of and thank you for instilling some of that Agua Fria pride in our hearts.

Tradition is usually the key in developing a yearbook. This year, without completely casting it aside, the staff sought to create an annual that kept in step to the fast changing times of today. With a special focus on reality, this year's annual presents Agua Fria life as it really is—with good as well as bad times. The staff's efforts resulted in an annual which tells a true story of the year.

The Varsity Cheerleaders are all Juniors three of which have been on the squad in previous years. They consistently place in high positions during summer Cheerleading camp. Always pushing for victory, they boost school spirit by painting signs, putting on enthusiastic pep assemblies, with the help and cooperation of the pom pon girls. Semester break saw the absence of captain Bonnie Stewart; Denise Espil replaced her and took on the full responsibility—doing a fine job through the remaining part of the year. Agua Fria is a friendly and closely woven school. Being a true part of the student body, the cheerleaders receive a tremendous response from their audiences when cheering. Although the squad is composed of different shapes and sizes, they work as one, and toward the same goal.

The 1968 football season was indeed unique for Agua Fria. It marked the first year that the Owls have had a losing season, and the new coaching staff was faced with many new and unexpected problems. This was, in some ways, a disappointing season, but with all the learning and effort that was required, it was a worthwhile experience, and one that the varsity ballplayers will long remember.

basketball

Fulton's follies have conquered. They have taken the conference title and have proven to the state of Arizona that Agua Fria is the kind of team people talk about.

Every time the 1969 Owls walked onto the floor, they showed their audience what high school athletics is all about. In every game, they proved that the name Agua Fria stood for victory, and good sportsmanship.

During the season, the team members wore black bands in remembrance of team mate, Dennis Johnson, who was killed during the summer of 1968.

Ron. Mitchell and Sam Johnson were presented with the honor of being named to the first team All-Conference team, with Whitey Cole who was named to the second team. Sam Johnson and Ron Mitchell were named to the first and second team All-State squad.

The last game of the 1969 season was without a doubt the most exciting game, and one that people will long remember.

wrestling

Wrestling is here, and from the looks of things it's here to stay.

Schreiber's Stranglers have had a very successful year considering this is only Agua Fria's second year in competitive wrestling.

Juan Escobar and Charles Belford each captured a second place position in the state wrestling tournament at Mesa Community College.

Danny Shuler and Jamie Stotts did very well in the district meet, although they did not place in the State tournament.

Everyone is expected to return except Morris Von Haden who is graduating. Mr. Schreiber is expecting a good wrestling season next year and a possible championship.

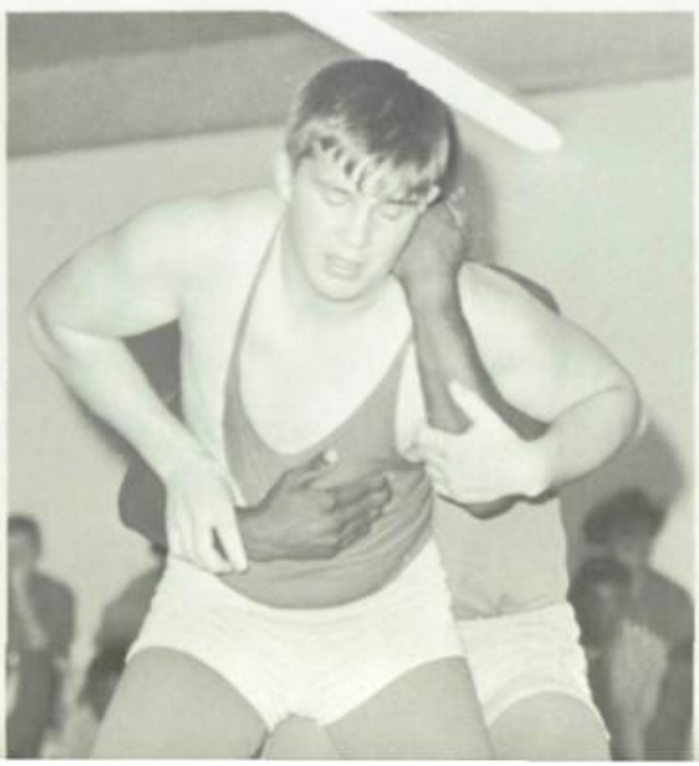
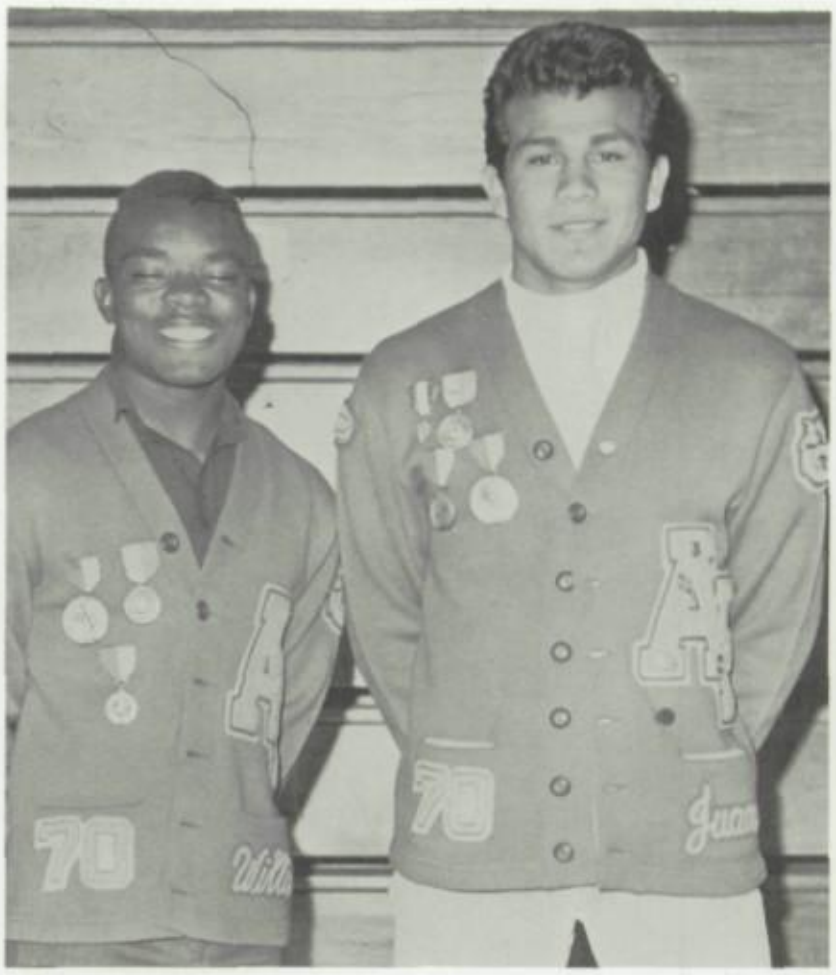
Wrestling is by far not an easy sport. The boys spend hours in practice and are sometimes injured. The boys use several different tactics as shown on this page to out-maneuver and out-smart their opponents.



Robert Murray tries to pin his opponent.



Charles Belford and Juan Escobar each won a second place medal in the State Wrestling Tournament.

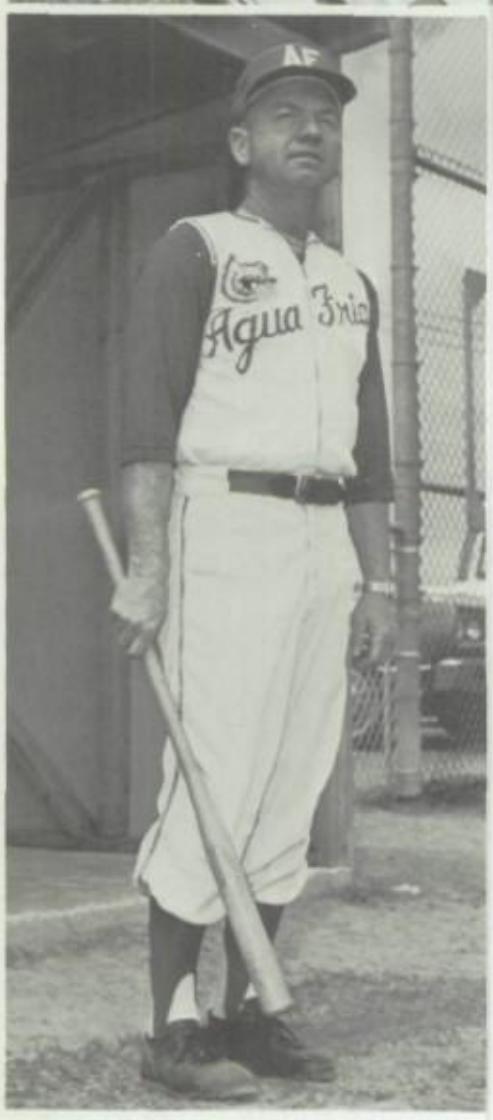
3rd row left to right: O'Neil Brown, Jimmy Antunez, Robert Villa, Ron Mitchell, Whitey Cole, Alton Davis, Ray Smith, 2nd row: Gilbert Cons, Pete Bejarano, Rick Wadsley, Junior Nandine, Kevin Kennedy, Barry Mitchell, Joe Boydston, 1st row: Coach Ellsworth, Lanny Lawson, Charles Belford, Carl Tolleson, Matt Vance.

Coach Ellsworth has, for two consecutive years, led his teams to the State-Championship. This year the Agua Fria team defended their title with hopes of becoming the 1969 Class AA Baseball Champs.

Agua Fria's baseball teams have consistently ranked high in the state. This is primarily due to the fact that the boys play as a team and not for their own personal glory. Their loyalty and spirit is evident in every game and at every practice.

The 1969 Owls had seven returning lettermen to make up this year's squad. The ball team started the season with a fantastic win over Buckeye. The final score of the game was Agua Fria 23 with Buckeye scoring only one run. At press time, the ball team had a record of six straight wins and no losses. The long hours of practice, the skill involved, and the direction of a qualified coach all made these wins possible.



Coach: Charles Ellsworth

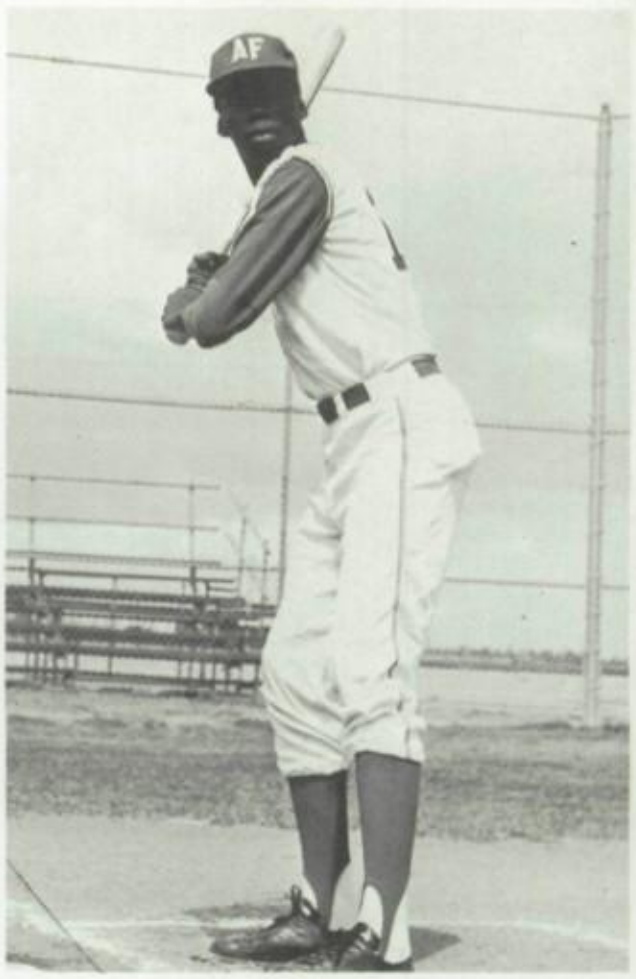
Rick Wadsley

Agua Fria's entire infield was made up of veterans who added much to the strength of 1969 ball team. The boys were experienced and skilled; they did a great job this past season.

Gilbert Cons

Whitey Cole

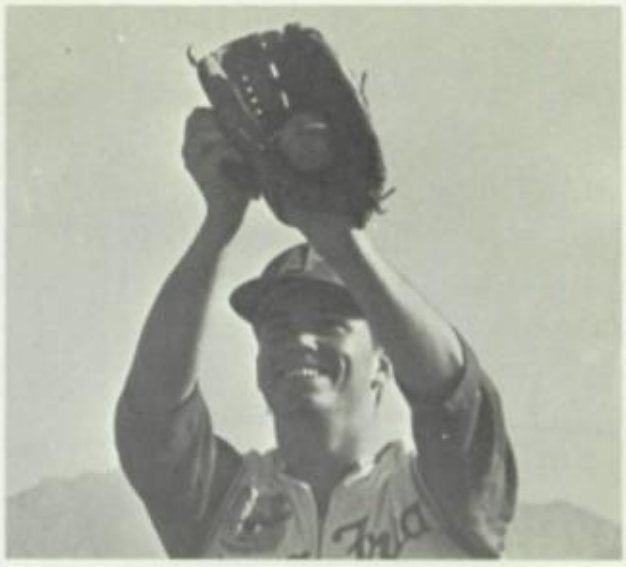
Pete Bejarano



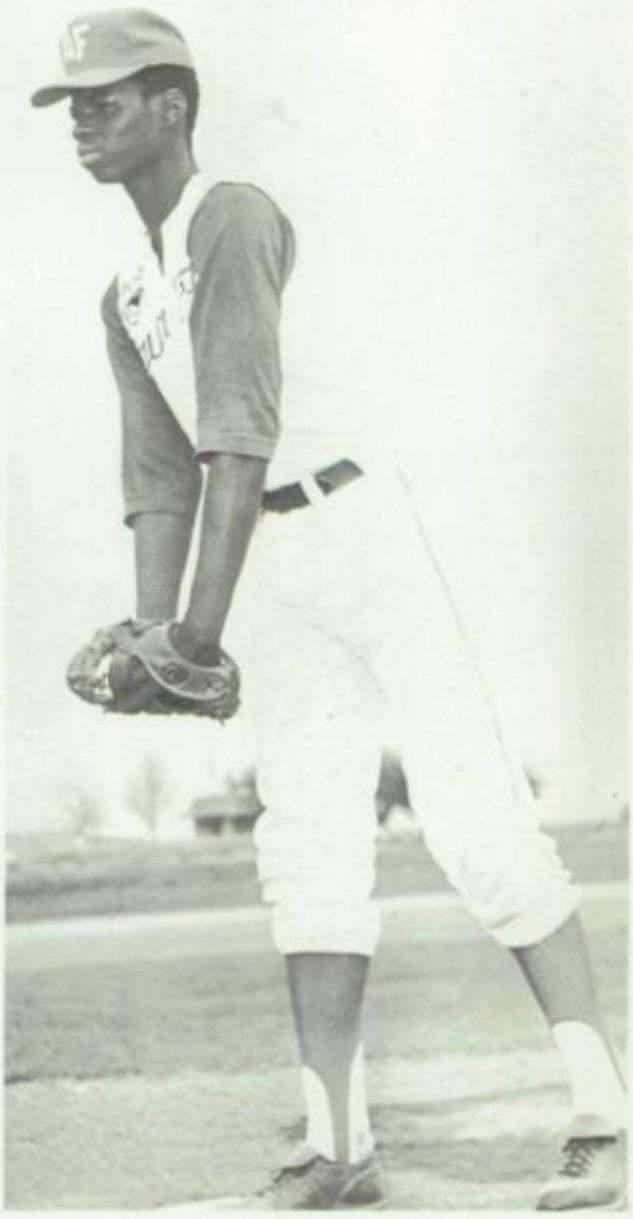
Alton Davis

Junior Nandin shows great promise in the future of baseball at Agua Fria.

O'Neil Brown



Barry Mitchell



Agua Fria has become accustomed to having some form of great talent on the ball field. This year was no exception, with Ron Mitchell, All-State pitcher and Lanny Lawson, All-State 2nd baseman returning to offer their skill and support to the team. Each of these two players along with every member of the team contributed greatly to the successful season that the 1969 Owls enjoyed.

The Sophomores took great pleasure in sponsoring J.V. cheerleaders. This was the first time in the history of Aqua Fria that there has been J.V. Cheerleaders. They've cheered the J.V. team to victory after victory . . . . . and have shown their appreciation by encouraging and boosting them to a great season.

A pause for fun and laughter for the sophomore pom pon girls although their outstanding performances prove that a lot of hard work is involved . . .

The Sophomores have really gone all out this past year. By expressing their support for athletic events and through happy moments of winning and depressing moments of defeat they continued to keep their high spirits. Their enthusiasm for team efforts were displayed by being the winners of spirit contests and first place winner of the homecoming float. Their booming spirit brings out the real spirit of an Agua Fria Owl.

Frosh remember elementary school years and think of hardships in high school, but now the freshmen come and find out for themselves. They come to register for their first year finding strange faces and very long lines. The honor of coming to the best high school in the state is a nerve-racking experience.

The first day of school finds the Frosh-walking in their little groups, all clean and wearing a new pair of shoes, having two unsharpened pencils in hand, walking nervously to their classes . . .

After a week or two, they find out what high school is all about and that it is completely different from what they had imagined. It's "un-groovy."

The frosh participate in G.A.A., football, tennis, etc., and show the coaches and advisors what to expect in the way of athletes and scholars in years to come. They also show teachers their study habits so that our fabulous faculty can be prepared for Agua Fria's scholastic influx.

The sweet, innocent, young freshmen girls dream of a tall, dark and handsome letterman, and of becoming Homecoming queen; while the boys dream of more simple joys, such as being All-American, or Homecoming king.

Contrary to popular belief, there is really nothing wrong with freshmen . . . we were all freshmen once. Of course, when we were in their position it was different.

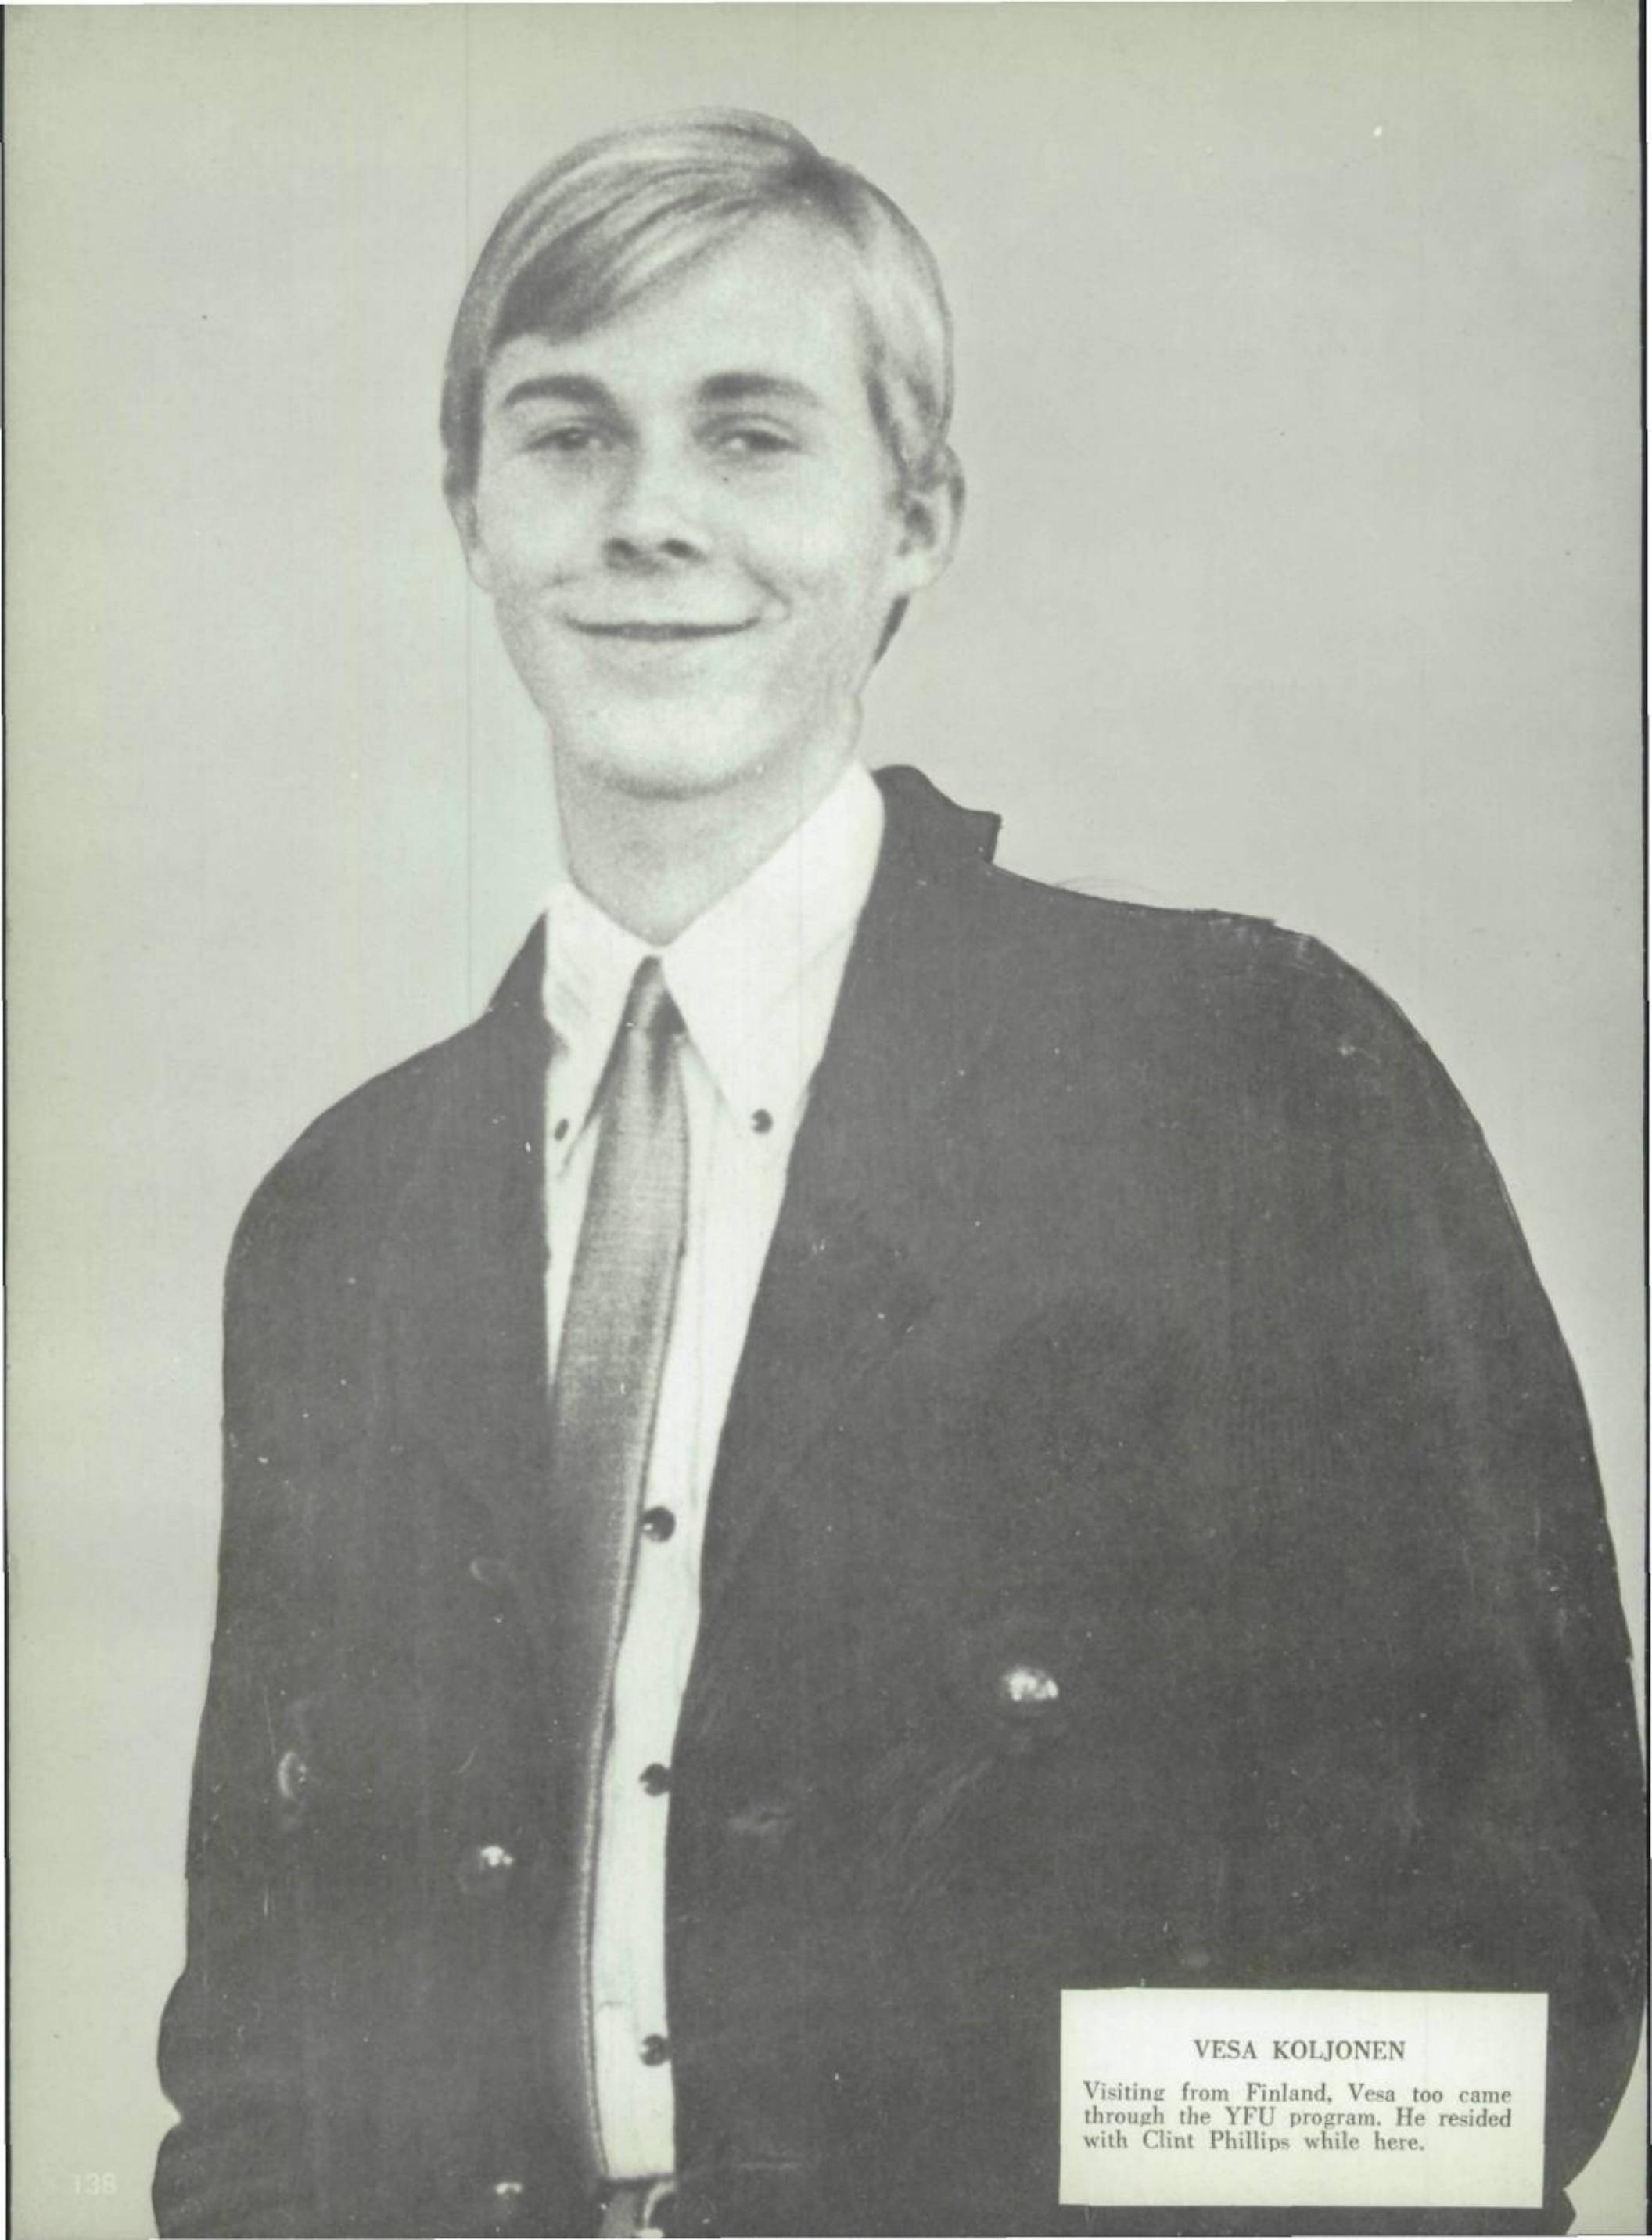
KÄTHE RAVNEBJERG

Our Danish Foreign Exchange Student came to Agua Fria through the Youth For Understanding Program. She spent the year with Janet Thrasher of Goodyear.



VESA KOLJONEN

Visiting from Finland, Vesa too came through the YFU program. He resided with Clint Phillips while here.

Well, we've come to the end of the '69 edition of the Wickiup. I hope that it has brought back as many memories for each of you as it has for me.

Every year the production of a yearbook demands many hours of free time as well as class time on the part of the members of the staff. They receive little thanks for their diligent work in putting out an accurate account of the year's happenings. This page is devoted in thanks to those who wrote copy, snapped pictures, arranged pictures and generally endured the constant rush to meet our deadlines.

Assistant Editor	:	Debbie Lytle
Classes Editor	:	Bennie Boyd
Sports Editor	:	Martha Emrick
Organizations Editor	:	Melissa Brothers
Honors Editor	:	Grace Ross
Business Manager	:	Shirley Sellers
Sales Manager	:	John Emrick
Staff Members	:	Kaye Brandick, Diane Crotwell, Beth Dudzick, Lee Fergusen, Phil Henderson, Bruce Parks, Mary James, Melinda Moore, Diane Sherrill, Paula Aragon, Pat Nowak and Lisa Paterson.

A very special thanks go to our photographers: Head Photographer: Mark Ord, Kevin Fellows, Sam McNelly and O'Neil Brown.

Thanks,
John

Let us shed a little light on your FUTURE

We're pretty well equipped to do it. For here, at Arizona Public Service, is where we think you'll find opportunity knocking. We're looking for young people to fill our ranks. People with imagination and drive to meet the challenging demands of the future. People in all phases: engineering and imagineering, sales, data processing, business administration and electronic applications. But most of all we desire people with a strong sense of responsibility to the community in which they live.

We call them the bright people.
